

REMARKS

Reconsideration and allowance of the above-referenced application are respectfully requested. Upon entry of this application, claims 1-8, 19-26 and 37-52 will remain pending.

While amendments to the claims have been made, they are permissible amendments pursuant to Rule 116, and thus entry of this amendment is proper.

Claims 1-8, 37-38 and 41-46 are rejected under 35 USC 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1 and 41 have been amended to recited "apparatus" rather than "assembly." As such, this rejection is overcome.

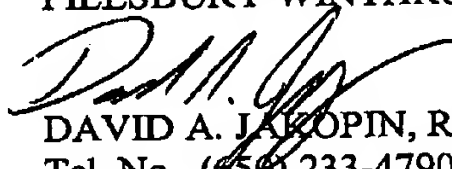

Claims 41, 45-47 and 51-52 are rejected under 35 USC 112 first paragraph as failing to comply with the written description requirement. Claim 41 has been amended to recite the 20 to 1 weight mixture specifically described in the specification and recited in other claims. As such, withdrawal of this rejection is appropriate.

Claims 1-8, 19-26, 37-40, 42-44 and 48-50 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over Claims 1-10 of U.S. Patent 6,714,484, in view of Glenn '582.

Attached hereto is a terminal disclaimer with respect to U.S. Patent 6,714,484 that overcomes the double patenting rejection. Accordingly, withdrawal of this rejection is also appropriate.

In view of the foregoing and because all objections and rejections have been addressed, it is respectfully submitted that the present application is in a condition for allowance and a Notice to that effect is earnestly solicited. If any points remain in issue which the Examiner feels may be best resolved through a personal or telephone interview, the Examiner is kindly requested to contact the undersigned at the telephone number listed below.

Respectfully submitted,
